New York Stock Market

New York, April 8.—After pursuing an uncertain course, with prices first above and then below yesterday's closing range, the stock market developed strength to-day, and trading ended with substantial advances. Fluctuations seemed to be chiefly the reflection of activity on the part of professional traders, who found it about as difficult to move stocks in one direction. sional traders, who found it about as difficult to move stocks in one direction as in the other. Evidences of underlying strength were not lacking, but operators on both sides of the market were unable to attract a following. Of the various influences brought to bear upon the market today, the President's message received first attention, but its effect upon the market was comparatively small. At the time of its delivery the list sold off sharply, but the movement was short-lived, and had the appearance of a bear drive, carefully timed to the heur of publication of the message.

a bear drive, carefully timed to the hour of publication of the message. The market grew dull.

Renewed confidence was expressed in the upward movement of the last hour, and best prices of the day were attained. Reading and the Copper stocks were especially strong.

The highly favorable character of the government report on winter wheat

the government report on winter wheat was a factor in bringing about the final upturn, although its influence was minimized by the fact that an excelminimized by the fact that an excel-lent showing had been confidently ex-pected. The same was true of the copper producers' figures, the March decrease of 18,000,000 pounds being in line with predictions. The bond mar-ket developed an easier tendency. Total sales, par value, \$3,110,000. United States 2s declined ½ on call.

Can common closed strong; higher prices are predicted for this stock. There was a sharp rally in Chesapeake and Ohio that carried the shares to 69. This movement was entirely at the expense of the shorts. The report of gross earnings is sufficient explanation why the stock has been weak. To-day's statement indicated a decrease of nearly 40 per cent in gross earnings for the ly 40 per cent in gross earnings for the fourth week of March. Up to the end of February gross earnings had increased \$1,432,000 over 1912, but the net was smaller by \$56,000, and this the result of higher operating expenses, not the flood. Youthful Incendiaries Arrested not the flood.

Steel common was actively traded in near the close, between 63 and 63 1-2, to Goldsboro.

Goldsboro, N. C., April S.—The origin of Goldsboro's Sunday night fire, which entailed a loss of over \$250,000, was learned to-day, when Chief of Police Denmark and Special Agent Morrison, of the Norfolk and Southern Railroad, returned from Rocky Mount with Guy East, aged fourteen, and Edwin Utter, aged fifteen years, white boys, who had been held in that place as runa-ways from this place.

Utter, whose father is dead, was living here with his two brothers, who are in the electrical supply business. He has only been here a few months teen-months' term in the Virginia Reformatory for theft. East is a native of this city. His father is out of town, and no attempt has been made to bail either of the boys, who are in Jail. The boys claim to have found the door of the building open, but railway people say that it was locked carefully on Saturday.

The money market showed a slightly firmer tone, and call loans were remewed at 4 per cent.

It is probable that the Union Pacific will ask for a year or more in which to dispose of its Southern Pacific stock. This, it is hoped, will avoid the necessity of the formation of a new underwriting syndicate.
